

CME Conflict(s) of Interest Disclosure

It is the policy of the Wright State University Boonshoft School of Medicine Continuing Medical Education (CME) Committee to ensure balance, independence, objectivity and scientific rigor in all CME activities.

All individuals in a position to influence the content of a certified CME activity must disclose any relevant financial relationship that might affect your independent involvement in the proposed CME activity. "Relevant financial relationship" is defined as a financial benefit that you, your spouse, or an immediate member of your family has had within the past 12 months. This pertains to salaries, royalties, intellectual property rights, consulting fees, honoraria, ownership interest or other financial benefits with pharmaceutical companies, biomedical device manufacturers or other corporations whose products or services are related to the subject matter of the presentation topic. The intent of this policy is to ensure that any potential conflict will be identified openly so that the activity participants may form their own judgments about the presentation with the full disclosure of facts.
